PRESS MURROW COLUMBIA BROADCASTING NEWYORK

unfortunately eye know very little about radio committees broadcast facilities because eye never allowed anywhere in building but directors office etstudio and my questions about technical plant remained unanswered stop what eye do know is that we had perfectly adequate studio facilities etbroadcast on three frequencies dash two in nineteen meter etone in twentyfive meter band stop from gossip and from pieces equipment around building eye presumed there plenty german equipment come in para eye understand from magidoff that russians purchased quote vast quantities unquote rca equipment comma so much so that magidoff returned moscowward september etimmediately began pressuring for twoway circuit para maybe leslie hayes who attended telecommunications conference moscow october can give you more dope para apart from radio committees broadcast facilities we could u ministry of communications radio telephone circuits stop thompson of who represent soyministry communications in usa aytee and tee 32 sixth avenue newyork might have precise deta stop october seve.teenth we went see yerygin who head international division mincommunications etasked him whether could use his facilit probroadcasting stop he said certainly etexpatiated on how good ethow adequate they were stop moscow newyork circuit open from 1300 to 1500 daily while moscow london circuit open 0900 to 1200 daily stop yerygin even said we could preempt period 1300 to 1315 by your orderi it in newyork etpaying dollars therefore stop he said this would prevent any interference by government priorities stop when we raised question of voice quality of telephone instrument yerygin s would willing discuss installing microphones for us para apparent next day yerygin got orders keep his mouth shut etentire deal collapsed stop we were told lines eternally busy stop but never unistates embassy personnel etunistates press correspondents been t ephoning their homes etoffices cumgood signal etwithout difficulty hope this will help you somewhat etsure hope moscow deal comes off para annie eye send warmest greetings you janet casey

hottelet

Richard C. Hottelet
Telephone Conversation with CBS
1730
18 October 1946

In the course of this conversation I will outline the procedure necessary for the establishment of regular radio telephone contact with the Columbia Broadcasting System in New York. I will instruct my office that it is possible to preempt the period from 1300 GMT to 1315 GMT if together with the National Broadcasting Company and the American Broadcasting Company it makes the required arrangements with the Thompson Telephone and Telegraph Company on Sixth Avenue in New York.

I will inform my office that we have indications here that the radio telephone circuit between Moscow and New York has a uniformly good signal. There is an alternative to such a circuit, namely by way of London. This channel is open to us from 0900 to 1200 GMT and can be booked by Columbia's London representative through the British General Post Office. We are informed, however, that the signal quality of this ~~ex~~ circuit is not as high as direct Moscow-New York.

Although it is possible to preempt the period between 1300 and 1315, we have the opportunity of calling New York during two hours from 1300 to 1500GMT. This makes it possible to telephone longer messages to New York for recording after the end of the fifteen minutes that all three networks will normally use for live broadcasts.

I will inform New York that the Soviet Ministry of Communications seems very cooperative. We will at first be using ordinary, high grade telephone instruments for our broadcasts. We have raised the question here as to whether telephone equipment can provide the wide voice range that is required by radio. The Ministry of Communications has suggested to us that we recommend to our networks that they decide whether the voice quality is sufficiently high to rebroadcast in New York. If it is decided that the technical quality is not good enough, the Ministry of Communications is willing to consider the question of installing a microphone ~~x~~ for us at the Moscow terminal.

I will point out that this commercial channel is the only means of voice broadcast available to us now that the rearrangement of the Radio Committee's schedule makes it impossible to use the Radio Committee's facilities.

I will suggest [illegible] to my office the question of what sort of cabled material they expect from me in addition to broadcasts.

PRESS COLUMBIA BROADCASTING NEWYORK

church discussed situation cumministry communications smorning stop possibility exists of using twoway radio telephone circuit direct newyorkward between 1300 and 1500 stop we informed signal dependable para eye will telephone you friday eighteenth at 1430 prodiscussion various points para please contact thompson telephone and telegraph company 32 sixth avenue new york city who are american representatives sovministry communications for information rates bookings para magidoff stevens informing their offices similarly para eye hope this one sticks cheers
